

Presenting with

Impact

Who should attend?

This training is for everybody who delivers meetings and presentations – internally or externally. It is expected that participants would have previously completed the E. Learning presentation skills prior to attending this programme or have experience in presenting.

So what is Presenting with Impact?

Even your best ideas go to waste unless you communicate them with impact. You must make sure that your messages are clear, concise and relevant to the listener. It also means you must get equipped with the skills and confidence it takes to deliver a presentation that truly makes an impact. Presenting with Impact is a highly engaging and practice-oriented training that will prepare you to deliver confident, lively and convincing business presentations in front of any audience. The programme will go far beyond the basics, including in-depth analysis of your style, strengths and impact, one-to-one coaching, and a personal video record of the amazing progress you will be making throughout the intense days of training.

Pre & Post Workshop

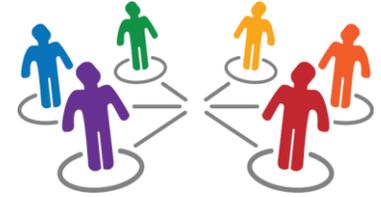

Development Action Plan

Certification

Certification of Competence will be granted on completion of individual Action Plan .

Workshop Objectives

During this 2 day workshop participants will:

1. Structure and deliver high impact presentations from concept to execution
2. Ensure presentation's true aim is achieved
3. Understand how to adapt presentation to audience
4. Learn how to manage the audience
5. Use a systematic approach in delivering presentations
6. Present with confidence and presence
7. Conquer and manage nerves
8. Make effective use of any audio visual material to ensure impact

Key Benefits for You and Your Organisation
